## Stage 00: Unboxing and Introduction

Written By: Makertech

## Step 1 — Unboxing

- Check that you have everything against the packing list that can be found at the bottom of this page.

## Step 2 — Tools

- Included Tools: Pliers, Allen keys, Cable ties
- You will also need (not included): Scissors, Lighter, Phillips head screwdriver, Small flat head screwdriver, Tape measure
- Optional: Electrical Tape, Lubricant for the rails.

**⚠ Missing in some kits is a 3mm Allen key, this is need for the M5 bolts. If you don't already own one, just drop us an email, and we can have one sent out.**

## Step 3 — Forum and Troubleshooting

- If you get stuck at any point or need help with assembly or printing something, feel free to post in the official [forum](#).
- If you're missing a part or have received a faulty/broken one, please use this form [here](#) to order a replacement.
- Want to get in touch? Drop us an email at [info@makertech3d.com](mailto:info@makertech3d.com)
